Highlights

Ultra Flake® Highlights are the ultimate way to add a pop of colour to your home, office or commercial space. The exciting colours available in the Highlights range are ideal for adding to an existing Ultra Flake® system, allowing you to choose an exceptional floor coating system and add a personalised and unique touch.

Popular in blends of 5%, 10% and 15%, Ultra Flake® Highlights allow you to customise your Ultra Flake® system, helping you attain your dream floor.

** If designing your own blend, it is advised you do a sample test run before application as base colours and blends can have a dramatic effect on the end results.*

Glitter

When you compliment the seamless finish of an already stunning Ultra Flake® or Hyper Flake® project with Resi Glitter, the results are unbelievable. Glitter is a popular additive to a number of APC systems, and for good reason!

Our extensive Resi Glitter Range offers a vast selection of colours and boasts a diverse range of glitter types. With options like holographic, random, and fine, you're sure to find a Resi Glitter that is perfect for your project.

The Resi Glitter Range has been tested and is compatible with solvents, solids, and water-based products. It doesn't matter if your project is a high-end epoxy/urethane floor, a seamlessly glossy epoxy benchtop, or a unique and stunning epoxy art piece – adding a bit of sparkle is easy with the Resi Glitter Range.
